FOR IMMEDIATE RELEASE

Integrated Care Management Adds Five Case Managers to Team

New Hires Driven By Client Demand and Company Growth

ATLANTA— July 14, 2009— Integrated Care Management (ICM), a leading disability management firm, announces the hiring of five case managers in the month of June.

The new hires reflect an increase in the needs of TPAs, Insurance Companies and Self-Insured firms for ICM Case Management and Integrated Disability Management services.

According to ICM EVP Kevin Hill, the new hires are consistent with the company's controlled growth strategy. "Despite the challenging economy, ICM has achieved steady growth. Our case counts are up 15% from 2008 and revenue up 45% since January of this year. We owe much of our success to the quality of our case managers and take a very disciplined approach to our hiring process. We only hire case managers with a track record of outstanding performance to ensure the highest quality service for our clients."

ICM's commitment to investing in technology to increase productivity and help clients minimize expense while ensuring the proper care for injured workers drives the hiring process.

Says Hill, "We search for and hire case managers who embrace technology and understand how it can make them more effective at meeting the needs of all parties impacted when a workplace accident or illness occurs. That's why we provide robust, yet user-friendly technology typically available only from a much larger company, but with the support and responsiveness of a smaller, nimbler organization."

Based on current trends and business forecasts, ICM expects to hire additional case managers in upcoming quarters as the company expands into new territories across the United States.

About *Integrated Care Management*

Integrated Care Management (ICM) is a leading disability management firm that services the needs of TPAs, Insurance Companies and Self-Insured firms. ICM offers case management services, including field case management, telephonic or on-site coordination to help clients determine the most appropriate and cost-effective way to treat injured or ill employees and return them to work. Integrated Disability Management Services enable employers to integrate Workers' Compensation, Short-Term Disability and Long-Term Disability into a single actionable and manageable program.
