FOR IMMEDIATE RELEASE

Integrated Care Management Hires Seven Case Managers

Company's 11 Quarters of Consecutive Revenue Growth Fuels Expansion

ATLANTA— May 10, 2010— Integrated Care Management (ICM), a leading disability management firm, announces the addition of seven new case managers to their teams in Kentucky, Louisiana, Maryland, North Carolina and Texas.

The new hires are a result of the company's aggressive growth in existing and new markets. Currently, ICM offers case management services in 39 states. ICM will continue to add staff in the immediate future to meet the growing needs of their clients.

ICM EVP Kevin Hill says that the company is on an aggressive track to bring highly skilled and experienced case managers to the company. "We have been fortunate to see an increase in business despite the challenging economic climate which has resulted in bringing additional talent to the company. However, we've been very strategic in our hiring process, selecting only those case managers who buy into our business practices of dedicating the appropriate level of care that each case requires versus focusing on billable hours."

ICM's case management strategy is designed to return the injured worker to the job as safely and quickly as possible while keeping them connected to the workplace throughout the recovery process.

Added Hill, "Our strongest assets are our case managers and that's why we are so selective throughout the recruitment process. We seek case managers who perform best when they are empowered with the independence and autonomy to do what they are trained to do. At the same time we provide them with the technology and tools typically available from a much larger company along with the support and responsiveness of a leaner and more agile organization."

About Integrated Care Management

Integrated Care Management (ICM) is a leading disability management firm that services the needs of TPAs, Insurance Companies and Self-Insured firms. ICM offers case management strategies and services (field, on-site, catastrophic and vocational) which can be employed individually or in combination based on the recommendation of our case managers, and in consultation with clients.

Integrated Disability Management Services enable employers to integrate Workers' Compensation, Short-Term Disability and Long-Term Disability into a single actionable and manageable program. For more information, please visit www.integratedcare.com.
